times after planting, and a rich deposit of mad is left behind, which doubles the advantage conferred by the distribution of water where drouth is common. water where drooth is common.

COMPLAINT of sand in cotton has again proken out at the Liverpool Cotton Brokers' Association, which is dissatisfied because on this side the ocean we do not admit that sand blown by the winds into the unpicked cotton, or clinging to it when the open boll has been draggled in mud by heavy rain, was put there intentionally by human bands. When sand is put into the bales in shovels ful for the purpose of fraud, of course the wrong is acknowledged, but such instances re vely rare, and pity it is that the perpetrators are not in the penitentiary.
